

PIPELINE & SEWER JETTING SERVICE

PKX's pipeline & sewer jetting service allows for cleaning up to 2,500 feet of sewer pipe daily. Our Camel Maxxx 1200 jetter trucks features an advanced water pump capable of 100 gpm at 3,000psi, a 1,000-foot hose reel, and a telescopic boom system capable of a 26 foot reach.

Tilt-ejection unloading

Front-mounted hose reel controls

Telescopic vacuum system

FEATURES AND SPECS

- 8-inch vacuum system with a heavy-duty, channel-reinforced elbow for maximum durability.
- 270° manual rotation facilitates manhole entry and reduces traffic flow interruption
- Front-mounted digital display operation screen with diagnostic and trouble-shooting capabilities
- Reel capacity of 1,000' of 1" hose or 600' of 1 1/4" hose
- 4" rear mounted, stainless-steel crossover enables operators to replenish 1500 gallon water supply in less than 10 minutes
- Tilt-ejection unloading provides fast and thorough removal of debris
- Remote controlled vacuuming and water system, allowing for safer operation

BOOM RANGE

26-foot reach
217° total range
40' depth

VACUUM BLOWER

3500 - 6000 CFM
27" blower

WATER PUMP

100 GPM
3000 PSI
continuous duty

STORAGE TANK

1,500-gallon
water tank

DEBRIS STORAGE

12-yard debris
tank with water
decant abilities

CONTROL PANEL

Front-mounted
digital display, dual
joystick controls

SAFETY AND AFFILIATIONS

- Superior EMR and TRIR ratings
- All operators OQ
- Affiliation with operating engineers
- Operators background & drug tested

HOSE REEL

Front-mount, 270°
rotation angle,
1,000' capacity

REMOTE CONTROL

Up to 500 foot
range
