Porta Kleen Acquires Piqua-Based Sanitation Company

Expanded Sanitation Services Now Available Throughout Southwest Ohio

Piqua, Ohio February 25, 2022 – Recognized portable sanitation industry leader Porta Kleen has completed the acquisition of local sanitation company Mobile Sanitation Solutions, which will merge its operations into the Porta Kleen facility at 353 Fox Drive.

Mobile Sanitation Solutions was started in March of 2008 by founder and owners Mike and Katy Jacomet, who will remain with Porta Kleen throughout the transition; Mike as branch manager. Mobile Sanitation Solutions' two full-time route drivers will also remain with the merged entity.

Mobile Sanitation Solutions service offerings are available primarily in Miami County and include portable restrooms, restroom trailers, handwashing stations and hand sanitizer stands – all of which complement Porta Kleen's sanitation solutions.

Porta Kleen president Adam Black said that with Porta Kleen's extensive reach and sanitation offerings, the merged entity will look to expand service from the Piqua branch. "Porta Kleen plans to immediately integrate Mobile Sanitation Solutions into our existing portable sanitation division and current routes. This will allow us to offer restroom service to the surrounding counties of Auglaize and Logan. For larger events and projects, the Piqua branch will offer the complete line of PK sanitation solutions and extend service to Mercer, Van Wert, Allen and Hardin Counties."

With more than 25 years of industry experience, international reach and local service, Porta Kleen is a leader in the portable sanitation industry. Porta Kleen offers a full lineup of portable restroom options and temporary water systems, a large and diverse fleet of mobile restroom trailers, the largest mobile shower fleet in the North America, and innovative solutions like Mobile Locker Rooms, Bunkhouse and Laundry trailers. You can learn more about Porta Kleen at www.portakleen.com.
